

# Implementing ACO-level eCQM Reporting Lessons from Northwestern Medicine

---

**Presented by:**

Vanessa Flaherty

September 20, 2023

## ***Northwestern Medicine***

- *1 AMC located in downtown Chicago*
- *2 multi-specialty employed group practices (~2800 employed physicians)*
- *11 hospitals*

## ***Northwestern Medicine ACO***

- *~82,000 assigned beneficiaries*
- *45 practices*
- *16 EMRs*

# Northwestern Medicine ACO eCQM Reporting Strategy

**Report independently:** Aggregate data from all TINs and produce QRDA III through our EMR vendor

Considerations	Pros	Cons
<ul style="list-style-type: none"><li>- ACO makeup</li><li>- TIN volume</li><li>- Internal expertise</li><li>- Internal resources</li><li>- Independent practice engagement level</li></ul>	<ul style="list-style-type: none"><li>✓ In depth understanding of reporting requirement</li><li>✓ Consistent communication to independent practices</li><li>✓ Leverage existing infrastructures</li><li>✓ Strengthen partnership with our EMR vendor</li><li>✓ Eliminate additional reporting costs</li></ul>	<ul style="list-style-type: none"><li>✗ Manual process</li><li>✗ Manual process</li><li>✗ Manual process...for now</li></ul>

# eCQM Project Work Plan

EDUCATE & ENGAGE

BUILD & AGGREGATE

VALIDATE

IMPROVE

# Engaging Practices on Disparate EMRs

**Educate**

**Set expectations**

**Update Participation  
Agreements as needed**

**Provide at-the-elbow  
support**

**Engage with external  
EMR vendors**

**Enforce expectations**

# Engaging Practices on Disparate EMRs

Common challenges encountered with independent practices

- ✗ Inconsistent engagement and support from EMR vendors
- ✗ Limited practice resources to work with EMR vendors to troubleshoot issues
- ✗ Limited understanding on EMR functionality related to producing QRDA I files
- ✗ Gaps in EMR build to accommodate QRDA discrete data
- ✗ Inconsistent practice engagement throughout QRDA I file performance validation

## Challenge

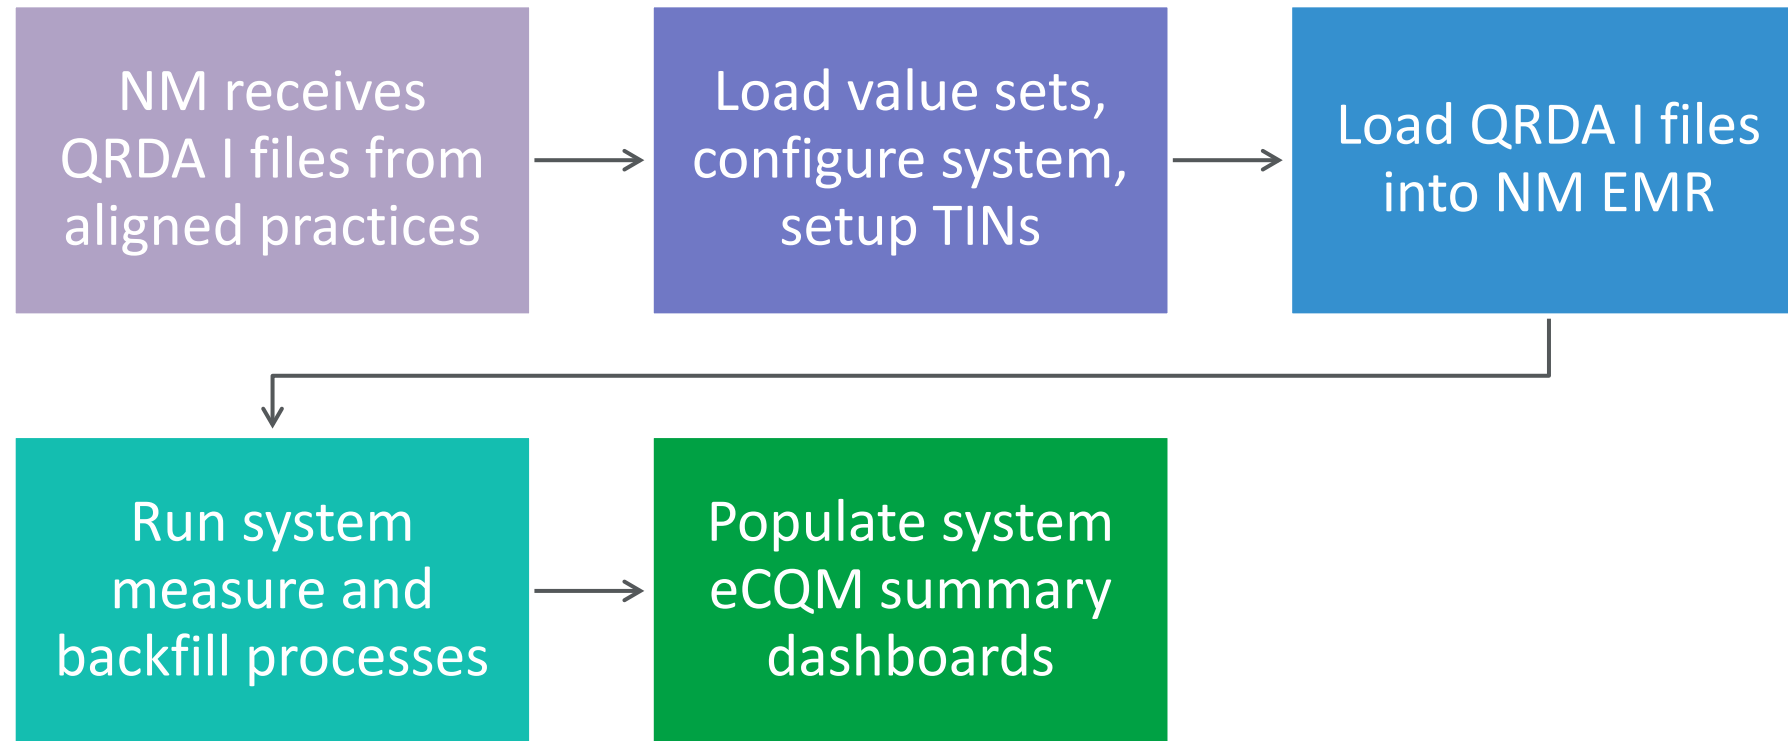

## Solutions

- ✓ Establish contacts within each EMR vendor
- ✓ Engage with EMR vendors/troubleshoot on behalf of the practices
- ✓ Identify existing EMR resources to assist practices in generating QRDA I files
  - If no resource exists, create one
- ✓ Aggregate available eCQM measure technical specifications across vendors
  - If no resource exists, create one based on QRDA I file validation
- ✓ Establish remote EMR access to complete necessary validation

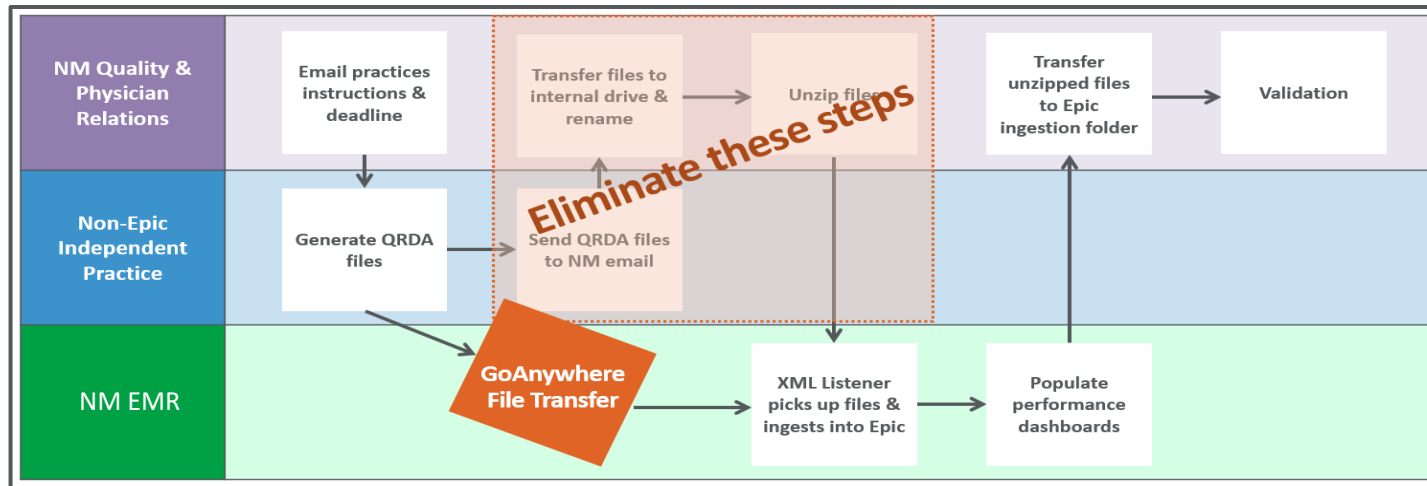

# Build and Aggregate

# Receipt of QRDA I Files

**Optimized** collection methods to standardize QRDA ingestion process

**93%** of practices produced QRDA files.

- Limitations in obtaining files as a result of the EMR vendor

# QRDA I File Load & Ingestion

Run system  
measure and  
backfill processes

Populate system  
eCQM summary  
dashboards

## **84%** of files were successfully ingested and produced data within our EMR

- Several files had missing TIN information which is required by Epic for ingestion
- Collaborating with practices and EMR vendors on file format updates required for successful ingestion.

## Patient Matching & Deduplication

- Engage Compliance and HIM input in designing patient matching process
- QRDA demographics: Expecting 100% complete/accurate patient matching across disparate EMRs is unrealistic
- NM to test EMR vendor **ACO-level deduplication solution**

## Types of Validation

- ✓ **Receipt:** Confirm receipt QRDA I files for all measures from all practices
  - Utilize QRDA I style sheet for more readable XML format
- ✓ **Ingestion:** Validate successful incorporation of QRDA I files into NM EMR and confirm that data is viewable at patient/encounter-level
  - eCQM measure drill down/tracer report to identify data source
- ✓ **De-duplication:** Confirm accurate de-duplication
  - Leverage Epic ACO-level deduplication solution
- ✓ **Outcome Accuracy:**
  - High-level: Compare eCQM score with data warehouse measure score
  - Measure-level: Confirm that “fails” and “passes” are correctly flagged

# Receipt Validation

## Types of Validation

- ✓ **Receipt:** Confirm receipt QRDA I files for all measures from all practices
  - Utilize QRDA I style sheet for more readable XML format

Measure Description

Outcomes

Outcome from the last run (4/11/2023) [R RDI 76731226] Met

Expected outcome for the next run Met

Population Criteria

✓ Qualifying Encounter During Measurement Period

Results 2 results

✓ Source: Union

✓ ["Encounter, Performed": "Encounter to Screen for Depression"]

✗ ["Encounter, Performed": "Physical Therapy Evaluation"] QualifyingEncounter

✓ Where: QualifyingEncounter.relevantPeriod during "Measurement Period"

Query

✓ QualifyingEncounter : QRDA I Import on 01/04/2022 [R.DXR 111512687]

✓ QualifyingEncounter : QRDA I Import on 11/14/2022 [R.DXR 111512687]

Mapped Data: Periodic comprehensive preventive medicine reevaluation and management of an individual including an age and gender appropriate history, examination, counseling/anticipatory guidance/risk factor reduction interventions, and the ordering of laboratory/diagnostic procedures, established patient; 40-64 years [CPT-99396]

relevantPeriod: 11/14/2022 10:00 AM - 11/14/2022 10:30 AM

✓ Where: QualifyingEncounter.relevantPeriod during "Measurement Period"

Drilldown

✓ Has Most Recent Adult Screening Negative

✓ Source: "Most Recent Adult Depression Screening" AdultScreen

✓ Where: AdultScreen.result ~ ["Depression screening negative (finding)"] is not null

Query

✓ AdultScreen : QRDA I Import on 11/14/2022 [R.DXR 111512687]

Mapped Data: Adult depress scrn assess [LOINC-73832-8]

relevantDateTime: Null

relevantPeriod: 11/14/2022 10:00 AM - 11/14/2022 10:30 AM

result: SNOMEDCT-428171000124102

✓ Where: AdultScreen.result ~ ["Depression screening negative (finding)"] is not null

# Outcome Validation

## Types of Validation

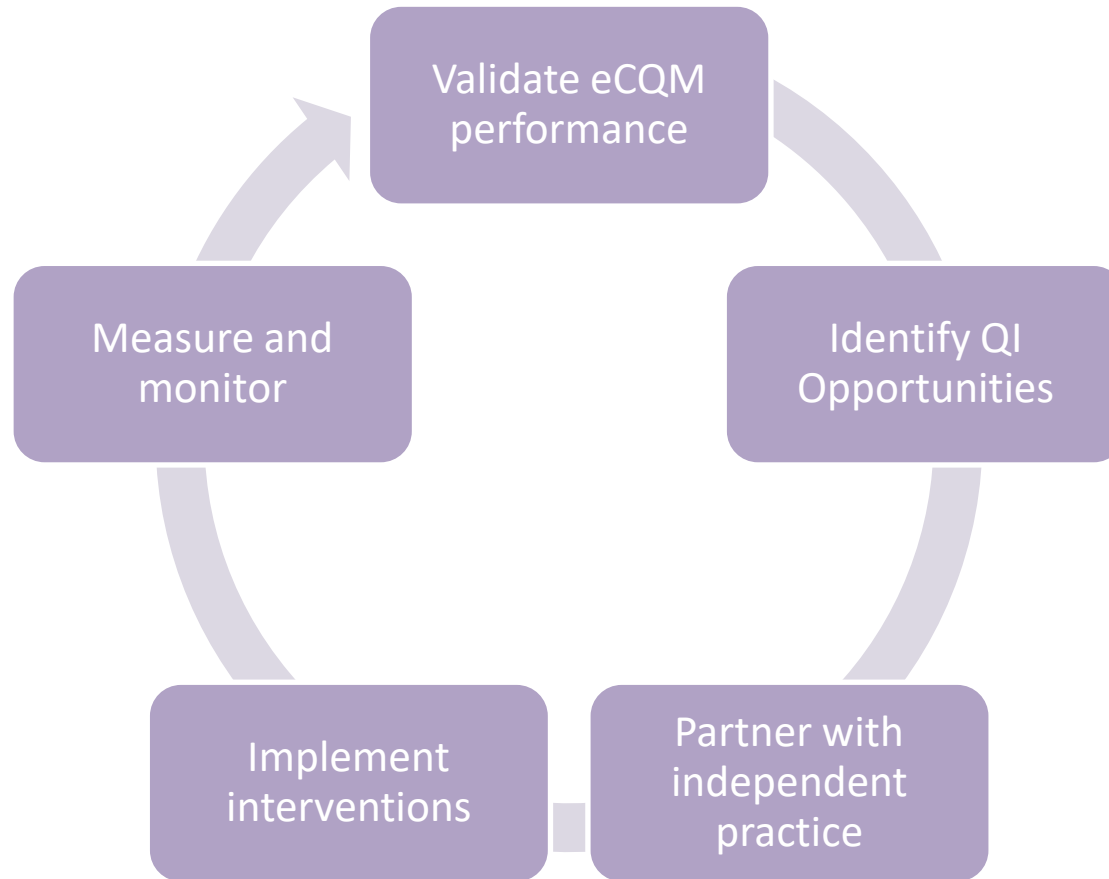

### ✓ Outcome Accuracy:

- High-level: Compare eCQM score with data warehouse measure score
- Measure-level: Confirm that “fails” and “passes” are correctly flagged using external EMR

Patient Name	Outcome	MRN	Qualifying Encounter?	QE Date	Comments	QRDA Validated
	Not Met		Y	11/3/2022	Yes QRDA External EMR: 11/3/22 BP 135/79 11/16/22 122/84	Y
	Met		Y	9/19/2022	Yes QRDA External EMR: telehealth visit on 9/19/22. BP 140/77 last bp 11/15/22 132/84	Y

# Improve

- Implement a quarterly QRDA I file submission for improved performance monitoring
- Leverage all payer data to better partner with aligned independent practices on quality improvement opportunities
- Leverage understanding of EMR functionality to build additional internal quality reports to assist in QI implementation.

## Recommendations & Lessons Learned to Date

- 1) Start now—whatever timeline you think you can deliver on, add a year.
- 2) Independent reporting **IS** possible, but it will require significant internal resources and expertise
- 3) Strong relationships with your aligned independent practices is key
- 4) Don't be afraid to push back on EMR vendors to get the information you need

# Thank You
